Teresa Takes no Thought of Worldly Goods.

Santa Teresa said in conversation with a friend Saturday that her religion was God's religion, and she did not ue up with any earthly church She left the Catholic church long ago because she could not see bow there could be any other mediator between man and God than Jesus Chrit. She said she red in the Bible how by having faith in God, people were able to heal the sick, and she did not see why she should not have the same power if she prayed to him for it. So she read her Bible and kept up a constant prayer, until ere she knew it she found here li possessed of the power to help cure persons afflicted with pervous diseases, and believes it was in direct answer to prayer. Little by little her reputation increased until as her power ncreased she found herself with an immense fellowing.

Santa Teresa seems to have the entire Bible learned by heart, and can begin at any chapter and repeat it clear through. She says she has no time to read much of anything but the Bible, and makes it her constant study. The saint also says that she found that she was able to do the work only by casting saide everything of a worldly nature from her thoughts, and actually living on the spiritual. The idea of her inciting any disturbance or riot is utterly abhorrent to ber. She says she has treated several thousand persons since coming to El Paso, and has not asked anything for this ser-
